I am against the Dewey Burdock proposal for injection wells and hazardous waste disposal. First of all it is too close to Yellowstone caldera. We do have earthquakes in this area with one being a year or two ago in Ardmore. There are buried bombs and chemical weapons on the other side of Edgemont in Igloo. Wind cave is not very far off and new passageways are being discovered all the time.

I believe despite assurances that public water sources will not be safe and will propose grave danger to all of the people in the Black Hills and surrounding areas.

Please do not allow this to take place.

Thank you,
